

Temporary disruption to access boat ramp

Thursday, 8 October 2020

There will be a temporary disruption to access the Talbingo boat ramp in October.

The brief partial closure will be during crane operations in the car park to resupply the barge and relaunch from Talbingo boat ramp into the reservoir.

Traffic control will be in place during this short period of partially restricted access to the boat ramp.

Access to the boat ramp will be facilitated but there may be a short delay. Access will be maintained at all other times.

The barge will have a 30m exclusion zone and may operate 24/7.

For more information | Thank you for your patience while we carry out this work. If you have any questions please contact the Snowy 2.0 Community Information Line 1800 766 992 (1800 Snowy 2) or Future Generation Joint Venture via email community@futuregenerationjv.com.au

Snowy 2.0 is a major pumped hydro expansion of the Snowy Scheme and will continue to create jobs and business opportunities across the region. It is the largest renewable energy project in Australia that will add 2,000 megawatts of energy generation and provide 175 hours of storage to ensure the stability and reliability of the system. Snowy 2.0 will link the two existing Snowy Scheme dams, Tantangara and Talbingo, through underground tunnels and an underground power station with pumping capabilities.
