

## Snowy 2.0 Work Notification

Talbingo | August 2020

## Temporary disruptions to access boat ramp

**Tuesday 18 August | Wednesday 19 August**

**Tuesday 24 August | Wednesday 25 August**

There will be some temporary disruptions to access the Talbingo boat ramp in August 2020.

The brief closures will be during crane operations in the car park to assemble and fit out a barge and launch from Talbingo boat ramp into the reservoir.

Traffic control will be in place during these short periods of restricted access to the boat ramp. Access to the boat ramp will be maintained at all other times.

The barge will have a 30m exclusion zone and may operate 24/7.

**For more information** | Thank you for your understanding while we carry out this work. If you have any questions please contact the Snowy 2.0 Community Information Line 1800 766 992 (1800 Snowy 2) or Future Generation Joint Venture via email [community@futuregenerationjv.com.au](mailto:community@futuregenerationjv.com.au)

Snowy 2.0 is a major pumped hydro expansion of the Snowy Scheme and will continue to create jobs and business opportunities across the region. It is the largest renewable energy project in Australia that will add 2,000 megawatts of energy generation and provide 175 hours of storage to ensure the stability and reliability of the system. Snowy 2.0 will link the two existing Snowy Scheme dams, Tantangara and Talbingo, through underground tunnels and an underground power station with pumping capabilities.
