

Snowy 2.0 OOHW Work Notification

Polo Flat | February 2021

Activity: Maintenance, clean up and preparation works inside Shed 3 of the segment factory

Location: Polo Flat Road and Carlaminda Road, Cooma

Timing: Intermittent Out of Hours Work from 6pm-10pm

Mondays to Saturdays from 22 February to 31 May 2021

Out of hours work is required to fit-out the Snowy 2.0 segment factory and batch plant at Polo Flat.

The segment factory at Polo Flat will manufacture precast concrete segments to line the tunnels being excavated for Snowy 2.0. The factory will operate to facilitate the production of precast concrete tunnel segments that will be transported to the Snowy 2.0 project sites at Lobs Hole and Tantangara.

Works will involve

The following work may be undertaken out of hours:

- Maintenance, clean up and preparation for the next shift within Shed 3
- Using a forklift to move the segments from inside Shed 3 to the external laydown area

Work will be carried out on consecutive days, Mondays to Saturdays. Out of hours work will not be carried out on Sundays and public holidays.

What to expect

In order to complete the fit-out of Shed 3 at the segment factory the following intermittent out of hours works may be required:

- Internal housekeeping and clean up after the day shift and preparing for the following shift
- Maintenance inside the Shed 3
- Operating a forklift and using hand tools
- External diesel electric lighting towers for laydown area and pedestrian walkways
- Noise monitoring will be undertaken during these works. The work is not expected to be noisy and is being planned to ensure minimal disruption for local residents.

Periodic updates may be issued as work progresses. The program of work is subject to change based on weather, design, unexpected finds and scheduling requirements.

For more information
