

Snowy 2.0 Work Notification

Polo Flat | March 2021

Activity: Construction, early operations and maintenance activities at Segment Factory

Location: Polo Flat Road and Carlaminda Road, Cooma

Timing: 7am-6pm Mondays to Saturdays from 1 March 2021 to 31 August 2021
plus intermittent Out of Hours Work from 6pm-7am on Mondays to Saturdays

The Segment Factory at Polo Flat is required to manufacture precast concrete segments to line the tunnels being excavated for Snowy 2.0. The factory will operate to facilitate the production of precast concrete tunnel segments that will be transported to the Snowy 2.0 project sites at Lobs Hole and Tantangara.

Work will involve

Finishing construction of the segment factory & batching plant; fitting out the facility; and internal & external access roads is continuing at Polo Flat.

Initial operations at the segment factory will involve manual production of concrete segments, progressing to automated operations as machinery is tested and commissioned.

Maintenance and clean-up activities will be carried out on site, both inside the factory and external areas.

Work may involve a range of plant and equipment such as concrete trucks and pumps, concrete helicopters, flood lights, water carts, cranes, traffic control vehicles, and semi-trailers delivering material to site.

Out of Hours Work

Out of hours work is also required inside the Snowy 2.0 segment factory and batching plant at Polo Flat. Truck movements may also be carried out after-hours. Work will be carried out on consecutive days, Mondays to Saturdays. Out of hours work will not be carried out on Sundays and public holidays.

What to expect

- The work is being planned to ensure minimal disruption for the local residents and businesses, and to minimise impact to the environment.
- Traffic control may be in place during some short periods to help manage access on Polo Flat Road. Access to Polo Flat Road and Carlaminda Road will be maintained at all times.
- You may experience some noise and vibration during this work. Respite periods will be provided for high noise work.
- Where required, any dust generating activities will be watered down.

Construction of the segment factory and batching plant is expected to be substantially completed during this notified period.

Periodic updates may be issued as work progresses. The program of work may be subject to change based on weather, design, unexpected finds and scheduling requirements.

For more information

Thank you for your understanding while we carry out this work. If you have any questions please contact the Snowy 2.0 Community Information Line **1800 766 992** (1800 Snowy 2) or Future Generation Joint Venture via email community@futuregenerationjv.com.au
